Weighing & Electronic Identification

Leading edge, robust and simple to use stock weighing, data collection and EID systems.

GALLAGHER

Gallagher - A Family Business

Since the 1930's Gallagher's animal control systems have been developed by farmers for farmers. Today Gallagher is still owned by the Gallagher family. Our products are known in over 100 countries worldwide and are trusted to deliver superior performance, reliability and value for money that generations of farmers have always associated with Gallagher.

Our knowledge of the Australian agricultural industry has lead Gallagher Australia to distribute products that are specifically suited to the often harsh and varied conditions of our landscape.

To buy Gallagher equipment is to buy a complete package of product, on farm support and service. The Gallagher range of electric fencing and weigh systems is available through a network of more than 1500 resellers nationally in both the rural and metropolitan markets.

Our Territory Managers are the vital link between the reseller and the farmer; they may drive thousands of kilometres to ensure that dealers have the latest stock, information and selling aids. Our Territory Managers have extensive knowledge and provide one on one support, whether it's on farm, at a product demonstration or at a local field day.

Historically, Gallagher's core line was Electric Fencing for both stock and horses; we expanded our product portfolio in 1996 with the introduction of weigh systems. From the very beginning, innovative product developments and design have made Gallagher the market leader within this field. It now includes a comprehensive range of weigh systems, NLIS Readers, stock handling equipment and animal management software, to assist the farmer from the ground level in developing their business profitability and performance.

"A global reputation for innovative design and reliable quality – Gallagher, Trusted Worldwide."

Weighing and EID Systems

A Gallagher weighing & EID system offers a unique, integrated weighing and electronic identification (EID) system which enables you to monitor the performance of your animals. It provides:

- Fully integrated, complete range of product with strong back up and support - Gallagher offers you a one stop shop solution
- Accurate weighing data to allow for well-informed management decisions
- The ability to identify and record information for individual animals through scanning EID tags
- Custom designed software to analyse animal performance data
- On farm service for system selection, training and installation advice

At a glance

Reliability
Gallagher have provided farmers with innovative, quality products that enhance efficiency and profitability for over 70 years

Innovation
Our products are designed and tested with the expertise of our large research and development team and the input of farmers

The complete system
Gallagher provide the total package of quality animal management systems products, advice, training, support, and full servicing options

Weighing and EID Systems

Why weigh?

Today's leading farmers recognise that live animal weighing is an essential part of effective farm management. Well-informed management decisions come from animal weight data that is easily obtained and accurate.

What is Electronic Identification (EID)?

Electronic Identification (EID) is the technology by which individual animals are identified and traced by a unique identifying number stored on an electronic ear tag.

In addition to providing a means for compliance with traceability legislation active in many countries, EID provides major advantages that can be captured at an individual farm operation level.

EID provides accessible, accurate information on individual animals, giving farmers the means to manage and track the number and performance of these animals, and to automate or semi-automate many animal management and handling tasks.

For more information contact your local Gallagher dealer or your Gallagher Territory Manager or visit www.gallagher.com.au

Benefits of Weighing and EID

A Gallagher system allows farmers to:

- Measure feed conversion to maximise yield by monitoring weight gain over time
- Monitor animal health
- Confirm animal weights prior to mating
- Determine weaning weights
- Accurately track the number of animals on hand
- Select animals by weight for sale and slaughter
- Evaluate breeding performance for genetic selection
- Maximise the benefits of having animals fitted with electronic ear tags

- Electronic identification compatible weighing and data collectors (Gallagher W610, W810 and SmartTSi) enable accurate data on individual animals, helping you to maximise the performance of the livestock on your farm
- An EID system used with livestock software (such as APS Office) allows for efficient collection of animal information such as health treatments and vaccinations

Gallagher Technology

Gallagher offers you a complete animal management system to help you monitor and maximize the performance of your animals and extract more profit from your farm. The Gallagher range of readers, weigh scales, loadbars and accessories are fully compatible offering a wide range of capability and a system that will match your farm's requirements. Gallagher weighing and EID products are distinguished in the market by their advanced features and tough, farm ready design.

SmartTSi

Featuring the very latest in Gallagher Animal Performance technology, the SmartTSi is a unique touch screen weigh scale, computer and animal management system which allows you to instantly record and access data on individual animals and groups of animals.

Weigh Scales

Gallagher weigh scales and data collectors range from a basic 210 model for entry level automatic weighing, up to the 810 model for advanced EID compatible weighing and data collection. Tough, reliable and accurate - a Gallagher Weigh Scale is an integral component of your weighing system.

SmartReader

The Gallagher SmartReader range includes fixed in place permanent and portable tag reading options, all with full ISO tag compatibility. The SmartReader BR or R series permanent EID reader is fixed in place for hands free reading and is the best choice for animal identification at a fixed location, such as a weigh crate or in a race. The SmartReader HR3 is light and easy to use - perfect for portable applications for use at different sites.

Smart TSi

Suited to multiple enterprises with customisable recording the SmartTSi is specifically designed for life on the farm. Tough farm ready design for all-weather use and simple easy-to-use touch screen technology. Real time access to all farm records anywhere, anytime, for efficient management decisions, whether it is in the yard, in the office or out on farm.

Rugged Exterior
Tough farm ready design for all-weather use

Intuitive Software
Supplied with award-winning Animal Performance Systems Software (APS Office), for analysis and reporting purposes

Touch Screen
Full colour outdoor readable touch screen with large touch buttons

Simple Recording and Retrieval
Animal Performance Systems software (APS Yard), allows collection of comprehensive data and retrieval of information at the touch of a button, while in the yard

Significant Memory Capacity
Entire life history of all animals stored for on-farm viewing

LIVESTOCK AND FARM MANAGER

ADDITIONAL FEATURES INCLUDE:

- Animal weighing and data collection system enabling improved livestock management and performance
- Provides immediate access to detailed animal information, anywhere, at anytime – in the yard or office, or on the farm
- Award-winning Animal Performance Systems Software (APS) software with yard mode and office mode interface:
  - APS Yard is intuitive, simple to use and touch operated for rapid recording and retrieval of information on individual animals or groups of animals
  - APS Office allows comprehensive analysis and reporting of animal information collected previously in yards or on farm, and can be used on either the SmartTSi or Windows PC
- Access individual animal or herd information display screens at the touch of a button, while in the yard
- Comprehensive drafting capability. Draft by weight, EID number or any other user-defined rule

- 1024 MB memory allows storage capacity for at least 100,000 animals
- Bluetooth wireless connection for EID readers and drafters
- Integrated weigh scale, computer and animal management system, enabling improved livestock management and performance
- Full integration with loadbars, EID readers, automatic drafter and other animal management software
- Internal lithium ion battery provides up to 8 hours continuous use
- Bluetooth, RS232 serial and USB ports provided as standard
- Easily customise weighing and data recording sessions to automatically collect specific animal ID, traits, activities, notes and life data
- Record observations or future actions required for specific animals such as withholding periods and unlimited notes per animal
- A platform for continued Gallagher software innovation and integration with other products
- Pedigree chart creation and printing - Create pedigree charts back to great grandparents for display and/or printing

SmartTSi Testimonials

Jock Menzies - Turns off 75 head of cattle a fortnight to Woolworths

"Conningdale", Armidale, NSW

"The first time I saw Dave Clothier [of Gallagher] with a **SmartTSi** at a field day, I said, 'that's what I've been looking for forever'. "

"In the past, we've had problems meeting our specifications to Woolworths, because if you are even just a kilo over, you miss out on the grid.

The **SmartReader** and **SmartTSi** allow us to identify the best-performing animals … and keep track of all animal health on each individual. We find that invaluable for management and quality control.

I don't have time to be sitting around at a desk. When you derive your income from the paddock, you don't want to be sitting in front of a computer all night and day."

Warren Russell - Runs 2,500 Merinos, including 600 stud ewes

"Melrose", South of Horsham, Victoria

"We use the Gallagher hardware and software for ease of data collection, to reduce errors, allow greater accuracy and ease of doing jobs. It removes a huge amount of human error: just in fleece weighing, you've taken away 3 or 4 opportunities to make a mistake.

It's also allowed us to reduce labour: we only need 2 people, not 4, now for sheep classing adding information — such as joining details — via a touch-screen right in front of you, is just much simpler.

The advantage of having all that information is that it allows us to see an animal's performance over various traits and be able to assess its effect on our business bottom line.

Another great aspect with the Gallagher software is that it is very easy to import and export data [which we do with TopStud].

As part of Melrose's breeding philosophy of balance in all areas, our family believes in using every tool available to breed the best fine-wool Merinos we possibly can. The Gallagher **SmartTSi** has facilitated quick and accurate data recording and management. It's a terrific tool in animal management."

Weighing and Data Collectors

A Gallagher Weigh Scale Indicator provides today's performance conscious farmer with an innovative weighing system that is not only tough, reliable and accurate but also very simple to use.

Internal Battery

Internal rechargeable battery with charge indicator and low voltage shutdown.

Backlit Display Screen

Large, easy to read display screen. Backlit for use in sheds. (W610 and W810 only)

Large Labelled Push Buttons

• Manual weigh button

• Zero button

• Delete button

Graphics Screen

Graphics screen for display of weighing statistics and individual animal data. (W810 screen shown.)

Connectivity

Bluetooth wireless connection for EID readers and drafters (W810 only)

Rotary Dial

Large, easy to use rotary dial providing easy access to multiple weighing modes.

Clam Shell Design

Tough shock and waterproof case. For operation in yard or on your desk. Provides extra protection and easy carrying.

QWERTY Keyboard

Use your keyboard option for data entry. Tactile keys on keyboard 'domes'. (W810 keyboard shown.)

235mm   215mm

Weigh Scale and Data Recorder W810

(G01805) (W810 pictured above)

ADVANCED EID COMPATIBLE WEIGH DATA COLLECTOR

ADDITIONAL FEATURES INCLUDE:

- Animal notes stored with each weighing record
- Define your own animal traits and activities
- Connect to automated drafters and draft up to 9 ways by EID number, weight and list
- Draft statistics displayed while weighing for animal audit
- Draft category stored with animal record for later analysis
- Multiple trait sessions for flexible data collection, faster weighing and weight gain display

- Edit records on screen during weighing session
- Assign up to 15 digit visual tag number against weight records and EID number
- Stores 21,000 animals and 60,000 records
- Bluetooth wireless connection for EID readers and drafters
- Backlit screen for use in sheds.

Weigh Scale Indicator W610

(G01605)

ENTRY LEVEL EID WEIGH SCALE

ADDITIONAL FEATURES INCLUDE:

- Second LCD screen for data display and statistics
- Backlit screen for use in sheds
- View weight gain, graphical displays and other options on graphics screen
- Direct interface to EID tag reader
- QWERTY keyboard for alphanumeric IDs
- Supplied with MyScale Pro PC software for easy download of records from, and upload of records to, the Weigh Scale Indicator
- Calculates average daily weight gain and carcass weight
- Stores 15 digit tag numbers
- 2 digit condition scores
- Assigns visual tag number against EID tag number
- Automated drafter interface to control 5-way drafting
- 2 communication ports for connection to computer and peripheral devices, such as animal drafters and EID tag readers
- Stores 12,000 animals and 12,000 records.
- Bluetooth capable

Weigh Scale Indicator W310

(G01305)

ENTRY LEVEL WEIGH SCALE
WITH ADDITIONAL FEATURES

ADDITIONAL FEATURES INCLUDE:

- Weighing and drafting statistics displayed continuously during the weighing session
- Bold 'low 'and 'high' display for rapid 2 way drafting
- Capability to send weights directly to computer whilst weighing
- Printer options available for providing hard copy weigh results whilst weighing session is in progress

Weigh Scale Indicator W210

(G01205)

ENTRY LEVEL WEIGH SCALE

FEATURES INCLUDE:

- Locks onto animals weight regardless of movement
- Tough shock and waterproof case
- Three weighing modes for quick and easy weighing
- Internal rechargeable battery
- Compatible with most weigh bars

Heavy Duty Weigh Feet Kit

The Gallagher Heavy Duty Weigh Feet Kit is a tough, stainless steel loadcell system designed for heavy duty weighing applications. This unique design offers an alternative weigh system option for cattle handlers and irregular shaped platforms. The kit includes four weigh feet for placement in each corner ensuring accurate weight reads. Each weigh foot can be easily dismantled for loadcells to be replaced on site, preventing delays and stress during critical livestock handling sessions.

High Accuracy Loadcells

Corner to corner accurate reads for superior weighing performance

Easy to Replace Loadcells

Self-servicing design allows for on-site maintenance

High Capacity Design

To give significant overload protection

Vermin Proof

Rodent and crush protectors on loadcell and loadbar cables

Robust

All critical parts stainless steel for long life

Easy Installation

Offset holes in bottom mounting plate for drilling concrete while handler is in place

Heavy Duty Weigh Feet Kit

(G05420)

INCLUDED:

Four stainless steel weigh feet

Extra loadcell supplied as a spare

Prewired waterproof junction box

FEATURES:

- Tough, stainless steel Weigh Feet for easy mounting under cattle handlers and custom platforms
- 5000kg weighing capacity
- Fast and easy loadcell replacement without major lifting, preventing delays during critical livestock handling sessions
- High accuracy corner to corner performance for demanding weighing requirements
- Extra loadcell supplied in kit as a spare

Loadbars

Loadbars

(G06000/G06100)

FEATURES INCLUDE:

- 2000kg weighing capacity in 600mm and 1000mm lengths
- Tough rugged galvanized steel loadbars
- Slotted top mounting holes to fit all sizes of platforms
- 6 metre long, tough polyurethane loadbar cables
- Leads with spring steel protectors
- Fitted with high quality, moisture proof connectors
- Fully waterproof
- No rubber mounts or moving parts that can wear out
Heavy Duty Loadbars

(G06300)

FEATURES INCLUDE:

- 3500kg weighing capacity in 1000mm length
- Tough rugged galvanized steel loadbars
- 6 metre long, tough polyurethane loadbar cables
- Fitted with high quality, moisture proof connectors
- Fully waterproof
- No rubber mounts or moving parts that can wear out
- Leads with spring steel protectors

Super Heavy Duty Loadbars

(G06400)

FEATURES INCLUDE:

- 4500kg weighing capacity in 1000mm length
- Tough rugged steel loadbars
- 6 metre long, tough polyurethane loadbar cables
- Fitted with high quality, moisture proof connectors
- Fully waterproof
- No rubber mounts or moving parts that can wear out

6 metre Loadbar Extension Cables

PRODUCT VARIATIONS:

- 2000kg Loadbar (G05000)
- 3500/4500kg Loadbar (G05100)

Suspension Load Cells

G05500 – 250kg capacity / G05501 – 500kg capacity

FEATURES INCLUDE:

- Replaces mechanical scale for hanging crates
- Compact sturdy design
- No rubber to delaminate or rot
- Spiral spring metal reinforced cable
- High quality moisture proof connectors
- Suitable for the kangaroo meat industry
- Attach to a basket to weigh fleece or produce

Platforms

Aluminium Platform
(SG05800)

FEATURES INCLUDE:

- A high-strength platform designed to fit standard 2000kg Gallagher loadbars
- Suitable for weighing up to 2000kg loads
- Combine strength and portability to reduce the time and hassle involved in setting up weighing sessions
- Dimensions: 2400mm (l) x 700mm (w). Platform weighs 33kg
- 2 year guarantee

Split Aluminium Platform
(SG05799)

FEATURES INCLUDE:

- A lightweight, high-strength platform designed to fit standard 2000kg Gallagher loadbars
- Suitable for weighing up to 2000kg loads
- Combine strength and portability to reduce the time and hassle involved in weighing sessions
- Dimensions: 2200mm (l) x 650mm (w). Platform weighs 25kg
- Split panel enables easy transportation
- 2 year guarantee

Steel Platform
(SG05801)

FEATURES INCLUDE:

- Hot dip galvanised steel cattle platform
- Suitable for weighing up to 2000kg loads
- Dimensions: 2200mm (l) x 650mm (w). Platform weighs 80kg
- 2 year guarantee

Rubber Lined Platform
(SG05805)

FEATURES INCLUDE:

- A high-strength platform designed to fit standard 2000kg Gallagher loadbars
- Suitable for weighing up to 2000kg loads
- Rubber lined for quiet operation and increased traction
- Soft and smooth footing
- Dimensions: 2200mm (l) x 650mm (w). Platform weighs 52kg
- 2 year guarantee

Horse Platform
(SG5802)

FEATURES INCLUDE:

- A high-strength horse platform designed to fit standard 2000kg Gallagher loadbars
- Suitable for weighing up to 2000kg loads
- Rubber lined for quiet operation and increased traction
- Soft and smooth footing for horses
- Dimensions: 2400mm (l) x 1000mm (w). Platform weighs 75kg
- 2 year guarantee

Permanent EID Readers

BR600 BR1300

SmartReader BR Series

BR600 (G03111/G03121) BR1300 (G03111/G03112)

FEATURES INCLUDE:

- Battery powered panel reader for livestock identification
- Internal rechargeable battery
- Easy to read battery charge indicator
- Internal memory stores 20,000 tags
- Automatic antenna tuning
- Tag counter display screen records number of animals scanned
- Use with 600mm panel for constrained weighing of sheep or cattle in crate, or 1300mm panel for dairy or other walk past identification applications
- Move electronic controller from one antenna to another
- Plug reader into weigh scale for scanning and weighing
- Bluetooth communications to weigh scale
- Download stored records to the computer (software included)

R600 R1300

SmartReader R Series

R600 (G03113/G03121) R1300 (G03113/G03112)

FEATURES INCLUDE:

- Panel reader for livestock identification
- Requires external 12V power source
- Automatic antenna tuning
- Use with 600mm panel for constrained weighing of sheep or cattle in crate, or 1300mm for dairy or other walk past identification applications
- Plug reader into weigh scale for scanning and weighing
- Move electronic controller from one antenna to another
- Bluetooth communications to weigh scale

Portable EID Reader

SmartReader HR3

(G03301)

FEATURES INCLUDE:

- Half duplex (HDX) and full duplex (FDX-B) ISO compliant
- Create new sessions on reader to group tag reads from different pens of animals
- Internal memory for 5,000 tags for later download to computer
- Last tag scanned is displayed at power up
- Graphic display module shows:
  - Number of tags read in current session
  - Total number of tag numbers stored in memory
  - Unique EID number of last tag read
  - Battery charge level
  - Reader in record data or transfer data mode
- MyScale Pro software to download files and store sessions on computer
- Compatible with Gallagher Weigh Scales (models W610, W810), SmartTSi and other brands of EID capable weighing and data collectors
- Built in Bluetooth communications for sending tag numbers to the other storage devices

Barcoding Equipment

QuickScan Barcode Scanner

(SG3910)

FEATURES INCLUDE:

- Quick and easy to scan
- Hand held
- Able to read barcodes even in bright conditions
- Lightweight and ergonomic
- Plastic enclosure guards against liquid and dust infiltration
- Low power consumption
- Rubber shield designed to cushion scanner from drops and also protects scan window from scratching

Barcode Printer

(SG3900, RW220)

FEATURES INCLUDE:

- Optional Bluetooth and wireless connectivity
- Standard USB and Serial interfaces
- Smart battery management for longer battery life
- Angled 4 button LCD display
- Rugged, scratch resistant casing and construction
- Can endure extreme temperatures
- Compact and lightweight
- Can be worn on a belt, carried over the shoulder or mounted in a vehicle with complete ease
- 4MB Flash memory and 8MB of RAM

Sheep Auto Drafter

The Sheep Auto Drafter is a fully automated weighing and drafting system that is smoother, quieter and easier to set up and operate than any other sheep drafting product on the market. The Sheep Auto Drafter includes the weigh crate, integrated load cells, integrated control module with remote control and three way draft module.

Three Way Drafter
Modular design makes for easy attachment

EID Ready
Compatible with Gallagher EID tag reader controllers. (Reader not included)

Compatibility
Compatible with Gallagher and most other weigh scales on the market. (Weigh scale not included)

Indestructable
Composite Material withstands repeated sheep impact

Faster Flow
Short travel split gates for rapid capture and release at entry and exit

Electronic Ear Tag Compatibility
Built in antennas for reliable read

Remote Control Operation
Unit can be controlled by one operator

Flexible
Adjustable sides for small lambs to the largest rams

Highly Visible Control Panel
Includes emergency stop button, auto manual status and fault lamp

Sheep Auto Drafter

(G05714)

ADDITIONAL FEATURES INCLUDE:

- Automatic operation – entry gate controlled by machine, drafting becomes a one person operation
- Very quiet both electronically and audibly – handles EID well and sheep are not frightened
- Sheep friendly design – high stock throughput
- Portable lightweight and easily transportable
- Indestructible – composite material withstand repeated sheep impact
- Integrated control – plug in air, power, indicator and weigh scale and the system is ready to go
- Improved health and safety for sheep and operator – no trapping points or metal bars to walk into

- Faster flow – short travel split gates for rapid capture and release at entry and exit
- Extended life – integrated stainless steel load cells for extend product life
- Flexible – adjustable sides to handle small lambs to the largest rams
- Optional Accessory:
  G05730 Optional Lead Up Race

Sheep Handler Range

The new range of sheep handlers by Gallagher offers a handling option to suit all operations. Robust, intelligent and built farm tough, the new range is designed to make sheep handling easier and more efficient. Constructed from galvanised steel and compatible with weighing and electronic identification equipment, the Gallagher Sheep Handler range gives a comprehensive solution for Australian producers.

Control box
For managing entire drafting and handling process

Remote Control Operation
To use when away from the control box

Choose Clamping Position
Adjust the position of the magic eye sensor to suit required access of animal

Easy access for head work
Rollover clamp includes a head flap

Quick and Efficient Drafting
3 way automatic gates

Accurate Weigh Platform
Heavy duty stainless steel loadcells included

Easy Crutching and Dagging Access
Rollover clamp operated via an air switch, allows for safe and easy access to belly and feet

Protective Rubber Lining
Runways and clamps rubber lined for safety and comfort

Ramp Clamp
Holds next animal in place until ready for processing

Sheep Handler - Auto Weigh, Crutch and Dag

(SG05794)

The Auto Weigh, Crutch and Dag Sheep Handler is designed to save farmers time, money and back-breaking work. An innovative top clamp secures the sheep allowing it to be rolled onto its side for crutching and dagging and the belly crutch mechanism allows for a full belly crutch. When used with a Weigh Scale, automatic weighing and 3 way drafting ensures fast and efficient sheep throughput.

FEATURES INCLUDE:

- Air controlled
- Rolls sheep on their side for dagging and crutching - throughput between 80-150 sheep per hour
- Automatic weighing and 3 way drafting – throughput between 500-800 sheep per hour
- Rubber lined floor and sides
- Adjustable entry ramp
- Entry shut off gate
- Overhead clamp
- Rollover function for open access to feet and belly
- Remote control included

OPTIONAL EXTRA:

- Transportation Kit SG05795

# Sheep Handler – Auto Weigh

(SG05793)

The Auto Weigh Sheep Handler gives fast and accurate weighing and drafting using the innovative top clamping system and enables crutching while the sheep is secured in an upright position.

FEATURES INCLUDE:

- Air controlled
- Automatic weighing and 3 way drafting - throughput between 500-800 sheep per hour
- Rubber lined floor and sides
- Adjustable entry ramp
- Entry shut off gate
- Overhead clamp
- Open access to feet and belly
- Remote control included
- Dagging access from rear of handler

OPTIONAL EXTRA:

- Transportation Kit SG05790

Sheep Handler – Crutch and Dag (Auto Catch)
(SG05976)

Sheep Handler – Crutch and Dag (Manual Catch)
(SG05792)

The Crutch and Dag Sheep Handler is the ideal product for effective dagging and crutching. The innovative top clamping system secures the sheep, allowing it to be rolled on its side for full access for crutching and dagging. The belly crutch mechanism allows for a full belly crutch.

FEATURES INCLUDE:

- Air controlled
- Rolls sheep on their side for dagging and crutching- throughput between 80-150 sheep per hour
- Rubber lined floor and sides
- Adjustable entry ramp
- Entry shut off gate
- Overhead clamp
- Open access to feet and belly

OPTIONAL EXTRA:

- Transportation Kit SG05791

Manual Sheep Crates

Sheep Crate - Manual Weigh and 3 Way Draft

(SG05798)

Sheep Crate - Manual Weigh

(SG05797)

Lightweight and made from alloy, the Manual Weigh Sheep Crate comes as standard or with a 3 way drafting mechanism

FEATURES INCLUDE:

- Dimensions - 1310mm long x 690mm Wide x 1120mm
- Easy drafting via sliding gates and plastic grip handles
- Adjustable interior wall to adjust for small lambs to large rams
- Lightweight construction (37kg) and compact design allows for easy transportation on trailer or back of ute
- Adjustable utility bar designed to hold weighscale at users eye level
- Drain holes on base for easy cleaning
- Mesh wall panelling for easy viewing and to allow light into the crate
- In-built loadbar moulds under base of crate

On Farm Service

"World leading products, backed up with comprehensive on-farm support – it's no wonder Australian farmers trust Gallagher."

Gallagher Territory Manager Service offers:

- Customised specification of your weighing, data collecting and electronic identification system
- Review and evaluation of weighing and handling facilities for sheep, cattle, deer or dairy cows
- Training on how to maximise the benefits from your Weighing & EID Systems, long term
- Assistance with the selection of your energizer and earthing
- Fence system layout and design for effective stock control and grazing management
- Training on how to maximise the long-term benefits from your Gallagher electric fence systems
- Back up support and repairs
- 30 day money back guarantee

Expert service and support when you need it

The On Farm team helps you to get the best out of Gallagher's latest technologies and farm management solutions to increase profitability, efficiency and extract more value from your farm

Visit www.gallagher.com.au for more information on the Territory Manager service or phone 1800 GALLAGHER

Many of Gallagher's Territory Manager services are provided at no charge, with the purchase of Gallagher Animal Management product. However, some support and installation fees may apply. Also ask about our extended warranty and service contracts. Contact Gallagher for a quote today.
